

Shupatto

Belt-free Closing Umbrella

Shupatto

Umbrella

We wanted to make an umbrella
that felt light and
comfortable on rainy days.

No folding.

No belt.

No wet hands.

By adding a new mechanism
to the product category,
we have revolutionized the umbrella.
The Belt-free Closing Umbrella helps
ensure your rainy days
are seamless and stress-free.

Watch our video

Just “One-Pull” to close it
and the umbrella rolls up on its own.

A Unique Spiral Structure

Shupatto Umbrella adopts a unique spiral structure that allows you to close the umbrella without needing to touch the fabric or use a belt. The shaft rotates as you twist the umbrella, causing the fabric to wrap around towards the center.

See it in action.

Your hands never get wet

Simply pull the slider inwards and the fabric will neatly and smoothly fold into the frame without touching your hands, keeping them dry.

Button-Free Lock

Raise the slider to unlock and pull to release. There's no need to push a button, which allows the umbrella to smoothly open and close.

Drying Stopper

Equipped with a stopper to dry the umbrella in a partially open position. The umbrella gently stands in place until dry.

Water Repellent

The Shupatto Umbrella is coated with a high-grade water repellent. Raindrops easily fall off the fabric, allowing the umbrella to stay dry.

Effortlessly enter a subway station

Leave a store without blocking others behind you

Enter a store without stopping

Smoothly get into a taxi
